

SOHO TILE COLLECTIONS

Be inspired.

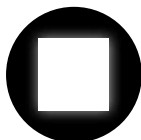

ICONS EXPLAINED

Defines if the tile is suitable to be used on the wall, floor, or both.

Shows the tile surface has a polished finish.

Shows the tile surface has a matt finish.

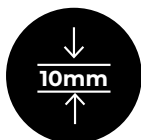

Identifies the R and PTV (Pendulum Test Value) slip resistance ratings for each tile range. The higher the rating, the greater the slip resistance.

The tile material type is porcelain.

The tile material type is ceramic.

Indicates the thickness of the tile.

CeramicPlus is a specialist surface finish that V&B apply to the tile to make it quick and easy to clean.

Vilbostoneplus is a seal, which renders the tiles particularly resistant to dirt and stains.

Vilbotouch is a new surface finish with a soft look, made with a microscopically fine structure that provides both a slip resistance class R10 and easy-care finish.

Ultimate Technology in Tiles

Timeless elegance, innovative design and outstanding quality, that is what the brand Villeroy & Boch has stood for since 1748.

Villeroy & Boch Wall and Floor Tile Collection exemplifies style and sophistication whilst also providing practicality. The ranges have been designed to transform a functional bathroom into a well-being oasis. Bringing together the highest quality authentic materials and refined craftsmanship with modern trends, manufactured with the highest hygiene and purity standards in mind. A comprehensive range that offers the potential to create stunning yet effortless design schemes to your home.

Tile Features

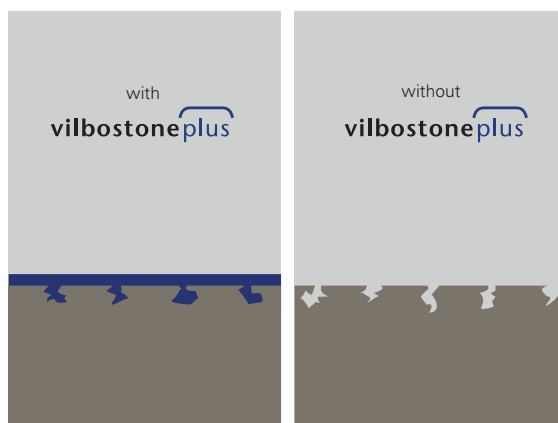

Quick and easy to clean!

CeramicPlus is an innovative dirt repellent coating applied to all Villeroy & Boch non-vitreous wall tiles during the final stages of manufacture.

This permanent, hygienic and practical scratch-resistant durable finish causes water to immediately form droplets on contact, which then merges into beads and simply drains away, taking any dirt and limescale particles with it. The result is an easy-clean, low maintenance surface, without the need for aggressive detergents.

VilbostonePlus is a new surface coating applied to Villeroy & Boch porcelain tiles during the manufacturing process that provides an invisible protective barrier to stains and soiling making the tiles easier to clean and maintain.

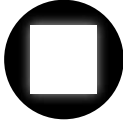

VilboTouch is a new surface finish applied to Villeroy & Boch porcelain tiles during the manufacturing process. Vilbotouch is used to provide the tile with an R10 slip-resistant finish that achieves PTV+36 whilst maintaining a soft look and feel that is easy to clean and maintain.
